A PRODUCT OF TECHNICAL HUB

YOUR COMPLETE CODING & PLACEMENT-PREPARATION ECOSYSTEM

Code Smarter. Practice Better. Get Future-Ready.

Stop switching between multiple platforms to learn, practice, compete and track your coding journey.

YOUR CODING JOURNEY

Your Coding Journey. One Dashboard.

LEARN
Courses, articles, videos & notes

PRACTICE
3,389+ practice questions

COMPETE
Contests with live leaderboards

TRACK
Heatmaps, reports & statistics

IMPROVE
AI Coding Tutor guidance

3,389+
Practice Questions

Build strong problem-solving skills through a vast collection of coding problems designed for continuous practice.

- Structured Courses
- Progress Tracking
- Coding Profiles
- Coding Contests
- Company-Specific Preparation
- LeetCode Integration
- AI Coding Tutor
- Coding Assessments

PLATFORM FEATURES

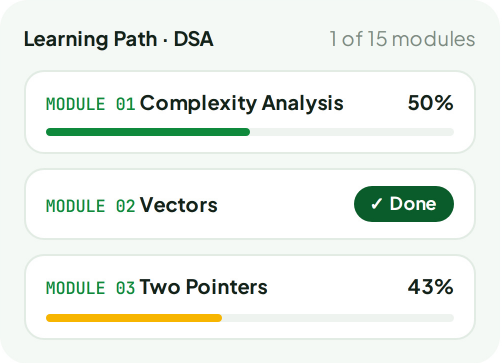

Everything You Need to Level Up Your Coding

01 — LEARN

Learn Through Structured Courses

Learn the concept. Practice the problem. Master the skill.

- ✓ Course modules
- ✓ Video content
- ✓ Trainer-curated problems
- ✓ Articles & learning resources
- ✓ Notes & study material
- ✓ Trainee practice problems

02 — PRACTICE

3,389+

Practice Questions

Practice by topic, difficulty and learning path — and turn daily practice into measurable progress.

Continuous Coding Practice
Topic-based problem solving that builds strong skills, every day.

Prepare for the Companies You Want
Select a company. Explore relevant questions. Practice. Improve.

LeetCode Integration
Find the problem. Practice it. Keep your coding journey connected.

From "What should I practice?" to "I know what to practice next."

03 — COMPETE

Compete. Climb. Conquer.

Coding contests with live leaderboards — test yourself, compete with peers and measure your standing. Supports C, C++, Java and Python.

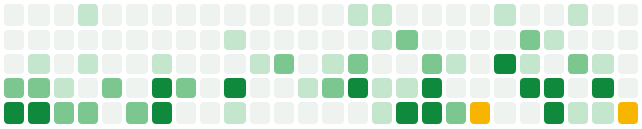

Rank	Roll No	Score
1	25B91A05D9	72
2	25B91A05E7	71
3	25B91A07A4	63

Practice Builds Skills. Competition Builds Confidence.

04 — TRACK

Track Your Progress at a Glance

Know exactly where you stand — from your overall journey to individual course performance.

Progress Heatmap · Course Overview · Detailed Course Reports · Practice Statistics · Coding Profiles

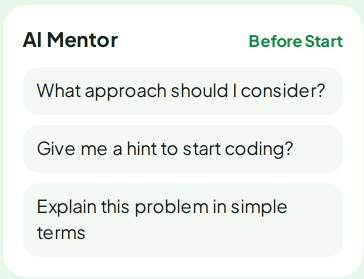

One Click. Complete Visibility.

05 — INTELLIGENCE

AI-Powered Coding Tutor

Stuck on a problem? Understand concepts. Get guidance. Learn from your mistakes. Keep coding.

Your AI Coding Companion — When You Need It.

Coding Assessments

Evaluate knowledge beyond practice.

- MCQ-based questions
- Coding problems
- Topic-based assessments
- Skill evaluations

Assess. Analyse. Improve.

THE OWL CODER ECOSYSTEM

Built for Students. Powered for Institutions.

For Students

Everything required to become a stronger programmer.

- Learn through courses
- Practice 3,389+ questions
- Compete in contests
- Track progress
- Build coding profiles
- Prepare for companies
- Take assessments

For Trainers

Make training more structured, measurable and data-driven.

- Create & manage courses
- Create learning content
- Assign coding problems
- Conduct assessments
- Organise contests
- Track trainee progress
- Analyse performance reports

For Institutions

Complete control over your coding ecosystem.

- Organisation-level admin panel
- Batch creation
- Course mapping to batches
- Contest & assessment creation
- Performance reports
- Organisation-level insights
- College lab / curriculum integration

HOW IT CONNECTS

STUDENT → LEARNING → PRACTICE → ASSESSMENT → PERFORMANCE → INSTITUTIONAL INSIGHTS

From Student Performance to Organisation-Level Insights — Everything in One Place.

Bring Your College Curriculum Into the Platform

College subject lab programs and curriculum-based coding exercises can be integrated into structured courses — students learn their academic subjects while continuously developing practical coding skills.

Classroom Learning + Coding Practice = One Connected Journey

WHY OWL CODER?

One Platform.

For learning, practice, assessment, competition and performance tracking.

One Dashboard.

For your coding activity and progress.

One Ecosystem.

Connecting students, trainers and institutions.

One Goal.

Building industry-ready problem solvers.

YOUR CODING JOURNEY STARTS HERE

TECHNICAL HUB

Don't Just Think. Make It Happen.

Learn → Practice → Compete → Track → Improve → Get Ready
